END OF SEMESTER TWO EXAMINATIONS

Paper Code: BIT 1204 Paper Name: Fundamentals of Website Development

Date: 30TH April 2024

Time: 09:00-5:00pm

PROJECT

Scenario

As an IT student, you've been tasked with showcasing your creativity and proficiency in HTML and CSS by designing a visually stunning static website for a real-world case study within Uganda. Your task is to create a captivating website that showcases the organization or company's services and your design skills.

Project Requirements:

Homepage

- Design an eye-catching homepage that reflects the creativity and innovations of your case study.
- Implement a slider on the page featuring at least three images that dynamically transition to showcase different aspects of the company's work or services.
- Include a captivating headline and a brief introduction to the company's mission or vision.
- Etc. (creativity is key)

About Us Page

- Design an "About Us" page that provides insight into the company's culture, values, and team members.
- Incorporate creative elements such as team member illustrations or animations to personalize the page.

Services Page

- Create a dedicated page to showcase the various services offered by your case study, preferably submenu items.
- Each service should have a unique and engaging presentation, possibly including interactive elements or animations.

Portfolio Page

- Develop a portfolio page to display examples of the company's past projects or successful campaigns.
- Use a grid layout or carousel to showcase images or screenshots of the projects, with optional descriptions or client testimonials.

Contact Page

- Create a contact page with a form for visitors to reach out to your case study.
- Include interactive elements such as animated form fields or a map displaying the company's location.

Design and Layout

- Implement CSS to style the website with unique and visually appealing elements.
- Experiment with color schemes, typography, and layout techniques to create a cohesive and engaging design.

Responsiveness

Ensure that the website is fully responsive and displays correctly on various devices and screen sizes, including desktops, tablets, and smartphones.

Submission Guidelines

Submit your project as a compressed file containing all HTML, CSS, and image files

Include a README.md file with instructions on how to view the website locally.

Assessment Criteria

Your project will be evaluated based on the following criteria

- ✓ Creativity and originality of design.
- ✓ Effectiveness in conveying the company's brand and message.
- ✓ Technical proficiency in HTML and CSS.
- ✓ User experience and interactivity.
- ✓ Responsiveness and compatibility across devices.
- ✓ Presentation Skills

Important Dates

Project Submission Deadline: 25 April 2024

Project Presentation and Evaluation: 30 April 2024

Note: Plagiarism or using pre-made templates without significant modifications will result in penalties. Your project should showcase your own creativity and design skills.
